

# GIFT

THE MAGIC OF

LATA MANGESHKAR

The purpose of [releasing](#) this Album (see page 4) is 2-fold:-

1. To pay tribute to Lata Tai, with whose blessings I could learn, at the ripe age of 75 years, playing songs on Casio, Midi Key Board etc., and record them as well as put them on my website, using my own mobile.
2. To demonstrate how a person having keen interest/ aptitude of playing music on Casio, to learn playing songs even without a mentor available.

The “Gift” file contains 60 hindi film songs of Lata Tai, one for each year from 1948 (when she was 19) to 2009 (when she was 80), except the years 2003 and 2008, which I could not locate.

One can see the range, variety and quality of songs rendered by her, which could be played even by an amateur.

I could not believe myself when I played my first full song on April 13, 2020 (something which I had tried from 1988 to 1992), after I touched Lata Tai’s feet on 28.9.2019 on her 90<sup>th</sup> birthday.

While attempting to play songs during Corona first wave, on my granddaughter's Casio, I noticed:-

- i. If one tries, he/ she can play a simple catchy tune's first line, in patches, to start with.
- ii. Once he/ she practices it for few weeks/ months, he/ she can then play it by putting his/ her finger on the first key of the line, rest of the line will start following without much effort.
- iii. A song typically has 4-8 different lines to be played, which are often repeated. So to play a song, one has to playing 4-8 lines only.
- iv. But one tends to forget and mix them. So to remember each line, one has to remember first key of each line.
- v. To do that one may video record the song while playing it, which can be seen later to recollect and play, as can be seen in some songs of last few years in the **Gift** file.

**The video has been released by my granddaughter **Stuti** as a gift on her 16<sup>th</sup> birthday, on December 31, 2021**

**While I was not able to sing a single song, male or female, properly, I can enjoy song of any artist now**
